DRIVER BACKGROUND:

Rick Crow has been working on and driving race cars since the tender age of sixteen. His Mother was a racing fanatic who never missed a race. Rick first entered a stock car at the coaching of a neighbor who owned a N.A.S.C.A.R. Sportsman. Rick's talent was immediately evident and his journey began toward owning his own stock car.

Rick traveled to race tracks all over the west coast. Following drivers like Jim Robinson, Jimmy Insolo and Ron Hornaday Jr. Rick worked on any pit crew he could find and gained valuable knowledge. Rick finally reached his dream in 1985 when he bought his first race car. The dream is still growing as Rick now builds and maintains his own race cars.

The extended amount of time Rick took to learn about all aspects of racing has paid off. Other drivers often come to Rick for help. Rick is popular with the fans and knows their importance.

Rick has raced for such causes as United Cerebral Palsey and the D.A.R.E. program.
